

To all that the following concerns,

The Sinclair Broadcast Group is threatening to hijack our public airwaves with propoganda that best suits its bank account(s). This is an outrageous attempt to sway public opinion towards a particular canidate in the upcoming Pres. election. It is becoming more and more apparent that the public must not trust the media's duty to provide information that is for the public's benefit. Obviously, the "bottom line" comes before the interests of the public. Shame on Sinclair for hijacking our public airwaves to benefit only themseves and their wealthy cronies.

Extremely concerned, Ryan Cyphers
